§ 175-22. Development fees.

- A. Purpose. This section establishes standards for the collection, maintenance, and expenditure of development fees that are consistent with the amended Fair Housing Act (P.L.2024, c.2), N.J.A.C. 5:99, and the Statewide Non-Residential Development Fee Act (C. 40:55D-8.1 through 8.7). Fees collected pursuant to this Ordinance shall be used for the sole purpose of providing very low-, low- and moderate-income housing in accordance with a Court-approved Spending Plan.
- B. Basic requirements.
 - (1) The municipality previously adopted a development fee ordinance, which established the Municipal Affordable Housing Trust Fund.
 - (2) The municipality shall not spend development fees until the court has approved a plan for spending such fees.
- C. Definitions. The following terms when used in this section shall have the following meanings:

AFFORDABLE HOUSING DEVELOPMENT

A development included in a municipality's housing element and fair share plan, and includes, but is not limited to, an inclusionary development, a municipally sponsored affordable housing project, or a 100 percent affordable development. This includes developments with affordable units on-site, off-site, or provided as a payment in-lieu of construction only if such a payment-in-lieu option has been previously approved by the Program or Superior Court as part of the HEFSP.

AFFORDABLE HOUSING MONITORING SYSTEM OR AHMS

The Department's cloud-based software application, which shall be the central repository for municipalities to use for reporting detailed information regarding affordable housing developments, affordable housing unit completions, and the collection and expenditures of funds deposited into the municipal affordable housing trust fund.

AFFORDABLE HOUSING TRUST FUND OR AHTF

The non-lapsing, revolving trust fund established in the Department pursuant to N.J.S.A. 52:27D-320 and N.J.A.C. 5:43 to be the repository of all State funds appropriated for affordable housing

purposes.

COAH OR THE COUNCIL

The Council on Affordable Housing established in, but not of, DCA pursuant to the Act and that was abolished effective March 20, 2024, pursuant to section 3 at P.L. 2024, c. 2 (N.J.S.A. 52:27D-304.1).

DEPARTMENT

The New Jersey Department of Community Affairs.

DEVELOPER

The legal or beneficial owner or owners of a lot or of any land proposed to be included in a proposed development, including the holder of an option or contract to purchase, or other person having an enforceable proprietary interest in such land.

DEVELOPMENT FEE

Money paid by a developer for the improvement of residential and non-residential property as permitted pursuant to N.J.S.A. 52:27D-329.2 and 40:55D-8.1 through 40:55D-8.7 and N.J.A.C. 5:99-3.

EQUALIZED ASSESSED VALUE OR EAV

The assessed value of a property divided by the current average ratio of assessed to true value for the municipality in which the property is situated, as determined in accordance with sections 1, 5, and 6 at P.L. 1973, c. 123 (N.J.S.A. 54:1-35a, 54:1-35b, and 54:1-35c). Estimates at the time of building permit may be obtained by the tax assessor using construction cost estimates. Final EAV shall be determined at project completion by the municipal assessor.

D. Residential development fees

(1) Imposed fees.

- (a) Residential developers, except for developers of the types of development specifically exempted below, shall pay a fee of 1.5% of the equalized assessed value for residential development, provided no increased density is permitted. Development fees shall also be imposed and collected when an additional dwelling unit is added to an existing residential structure; in such cases, the fee shall be calculated based on the increase in the equalized assessed value of the property due to the additional dwelling unit.
- (b) When an increase in residential density is permitted pursuant to a “d” variance granted under N.J.S.A. 40:55D-70d (5), developers shall be required to pay a “bonus” development fee of 6.0% of the equalized assessed value for each additional unit that may be realized, except that this provision shall not be applicable to a development that will include affordable housing. If the zoning on a site has changed during the two-year period preceding the filing of such a variance application, the base density for the purposes of calculating the bonus development fee shall be the highest density permitted by right during the two-year period preceding the filing of the variance application.

Example: If an approval allows four units to be constructed on a site that was zoned for two units, the fees could equal 1.5% of the equalized assessed value on the first two units; and the specified higher percentage of 6% of the equalized assessed value for the two additional units, provided zoning on the site has not changed during the two-year period preceding the filing of such a variance application.

(2) Eligible exactions, ineligible exactions and exemptions for residential development.

- (a) Affordable housing developments, developments where the developer is providing for the construction of affordable units elsewhere in the municipality, and developments where the developer has made an eligible payment in lieu of on-site construction of affordable units, if permitted by ordinance, or by agreement with the municipality and if approved by a municipality prior to the statutory elimination of payments in-lieu on March 20, 2024 per P.L.2024, c.2, shall be exempt from development fees.
- (b) Developments that have received preliminary or final site plan approval prior to the adoption of this subsection and any preceding ordinance permitting the collection of development fees shall be exempt from the payment of development fees, unless the developer seeks a substantial change in the original approval. Where a site plan approval does not apply, the issuance of a zoning and/or building permit shall be synonymous with preliminary or final site plan approval for the purpose of determining the right to an exemption. In all cases, the applicable fee percentage shall be determined based upon the development fee ordinance in effect on the date that the construction permit is issued.
- (c) Development fees shall be imposed and collected when an existing structure is expanded by 1,000 or more square feet of livable space. The development fee shall be calculated on the increase in the equalized assessed value of the improved structure.
- (d) No development fee shall be collected for the demolition and replacement of a residential building resulting from a fire or natural disaster.

E. Non-residential development fees.

(1) Imposition of fees.

- (a) Within all zoning districts, non-residential developers, except for developers of the types of development specifically exempted, shall pay a fee equal to 2.5% of the equalized assessed value of the land and improvements, for all new non-residential construction on an unimproved lot or lots.
- (b) Within all zoning districts, non-residential developers, except for developers of the types of development specifically exempted, shall also pay a fee equal to 2.5% of the increase in equalized assessed value resulting from any additions to existing structures to be used for non-residential purposes.
- (c) Development fees shall be imposed and collected when an existing structure is demolished and replaced. The development fee of 2.5% shall be calculated on the difference between the equalized assessed value of the pre-existing land and improvements and the equalized assessed value of the newly improved structure; i.e., land and improvements; and such calculation shall be made at the time a final certificate of occupancy is issued. If the calculation required under this section results in a negative number, the non-residential development fee shall be zero.

(2) Eligible exactions, ineligible exactions and exemptions for non-residential development.

- (a) The non-residential portion of a mixed-use inclusionary or market-rate development shall be subject to a 2.5% development fee, unless otherwise exempted below.

- (b) The 2.5% fee shall not apply to an increase in equalized assessed value resulting from alterations, change in use within existing footprint, reconstruction, renovations and repairs.
- (3) Non-residential developments shall be exempt from the payment of non-residential development fees in accordance with the exemptions required pursuant to the Statewide Non-Residential Development Fee Act (N.J.S.A. 40:55D-8.1 through 8.7), as specified in Form N-RDF "State of New Jersey Non-Residential Development Certification/Exemption." Any exemption claimed by a developer shall be substantiated by that developer.
- (4) A developer of a non-residential development exempted from the non-residential development fee pursuant to the Statewide Non-Residential Development Fee Act shall be subject to the fee at such time as the basis for the exemption no longer applies, and shall make the payment of the non-residential development fee, in that event, within three years after that event or after the issuance of the final certificate of occupancy of the non-residential development, whichever is later.
- (5) If a property that was exempted from the collection of a non-residential development fee thereafter ceases to be exempt from property taxation, the owner of the property shall remit the fees required pursuant to this section within 45 days of the termination of the property tax exemption. Unpaid non-residential development fees under these circumstances may be enforceable by the municipality as a lien against the real property of the owner.

F. Collections procedures.

- (1) Upon the granting of a preliminary, final or other applicable approval for a development, the applicable approving authority shall direct its staff to notify the construction official responsible for the issuance of a building permit.
- (2) For non-residential developments only, the developer shall also be provided with a copy of Form N-RDF, "State of New Jersey Non-Residential Development Certification/Exemption," to be completed by the developer as per the instructions provided in the Form N-RDF. The construction official shall verify the information submitted by the non-residential developer as per the instructions provided on Form N-RDF. The tax assessor shall verify exemptions and prepare estimated and final assessments as per the instructions provided in Form N-RDF.
- (3) The construction official responsible for the issuance of a building permit shall notify the tax assessor of the issuance of the first construction permit for a development that is subject to a development fee.
- (4) Within 90 days of receipt of that notice, the tax assessor shall provide an estimate, based on the plans filed, of the equalized assessed value of the development.
- (5) The construction official responsible for the issuance of a final certificate of occupancy shall notify the tax assessor of any and all requests for the scheduling of a final inspection on property that is subject to a development fee.
- (6) Within 10 business days of a request for the scheduling of a final inspection, the tax assessor shall confirm or modify the previously estimated equalized assessed value of the

improvements associated with the development; calculate the development fee; and thereafter notify the developer of the amount of the fee.

- (7) Should the municipality fail to determine or notify the developer of the amount of the development fee within 10 business days of the request for final inspection, the developer may estimate the amount due and pay that estimated amount consistent with the dispute process set forth in Subsection b. of section 37 of P.L.2008, c.46 (N.J.S.A. 40:55D-8.6).
- (8) Fifty percent (50%) of the development fee shall be collected at the time of issuance of the construction permit. The remaining portion shall be collected at the time of issuance of the certificate of occupancy. The developer shall be responsible for paying the difference between the fee calculated at the time of issuance of the construction permit and that determined at the time of issuance of certificate of occupancy.

G. Appeal of development fees.

- (1) A developer may challenge residential development fees imposed by filing a challenge with the County Board of Taxation. Pending a review and determination by that board, collected fees shall be placed in an interest-bearing escrow account by the municipality. Appeals from a determination of the board may be made to the Tax Court in accordance with the provisions of the State Tax Uniform Procedure Law, R.S. 54:48-1 et seq., within 90 days after the date of such determination. Interest earned on amounts escrowed shall be credited to the prevailing party.
- (2) A developer may challenge non-residential development fees imposed by filing a challenge with the director of the Division of Taxation. Pending a review and determination by the director, which shall be made within 45 days of receipt of the challenge, collected fees shall be placed in an interest-bearing escrow account by the municipality. Appeals from a determination of the director may be made to the Tax Court in accordance with the provisions of the State Tax Uniform Procedure Law, R.S. 54:48-1 et seq., within 90 days after the date of such determination. Interest earned on amounts escrowed shall be credited to the prevailing party.

H. Affordable Housing Trust Fund.

- (1) A separate, interest-bearing Municipal Affordable Housing Trust Fund shall be maintained by the chief financial officer of the municipality for the purpose of depositing development fees collected from residential and non-residential developers and proceeds from the sale of units with extinguished controls.
- (2) The following additional funds shall be deposited in the Municipal Affordable Housing Trust Fund and shall at all times be identifiable by source and amount:
 - (a) Payments in lieu of on-site construction of an affordable unit, where previously permitted by ordinance or by agreement with the municipality and if approved by a municipality prior to the statutory elimination of payments in-lieu on March 20, 2024 per P.L.2024, c.2;
 - (b) Funds contributed by developers to make 10% of the adaptable entrances in a townhouse or other multistory attached dwelling unit development accessible;

- (4) Occurrence of any of the deficiencies outlined in N.J.A.C. 5:99 may result in the Department requiring the forfeiture of all or a portion of the funds in the municipal Affordable Housing Trust Fund.
- (5) All interest accrued in the housing trust fund shall only be used on eligible affordable housing purposes approved by the Court.

I. Use of funds.

- (1) The expenditure of all funds shall conform to a Spending Plan approved by Superior Court. Funds deposited in the municipal Affordable Housing Trust Fund may be used for any activity approved by the Court to address the fair share obligation and may be set up as a grant or revolving loan program. Any property in the Borough of Demarest that receives a use variance, density variance increasing the permissible density at the site, a rezoning permitting multifamily residential housing where not previously permitted or a new redevelopment plan, to permit multifamily residential development, which would yield five or more additional units (over and above those already permitted as of right), that are developed at a density of six or more units per acre, shall provide a minimum affordable housing set-aside of 20% regardless of tenure.
- B. This requirement shall not apply to sites zoned for inclusionary residential development to meet the Realistic Development Potential or the overlay zones created to meet the unmet need as part of the Borough's Housing Element and Fair Share Plan, which shall comply with the applicable zoning or redevelopment plan requirements of providing affordable housing units.
- C. This requirement does not and shall not be construed to grant any developer the right to any rezoning, variance, redevelopment designation or other relief or establish any obligations on the part of the municipality to grant such rezoning, variance, redevelopment designation or other relief.

- D. A property shall not be permitted to be subdivided so as to avoid compliance with this requirement.
- E. All affordable units created pursuant to this section shall be governed by the provisions of Article X Affordable Housing.

§ 175-86. Fractional units and subsidy payments.

- A. Inclusionary developments that result in a fractional affordable housing obligation of 0.49 or less may round the number of affordable units down. The application shall make a prorated subsidy payment to cover the fraction.
- B. If the required number of affordable units results in a fraction of 0.5 or greater, the applicant shall round up and provide the additional affordable unit.
- C. The subsidy payment for Demarest shall be \$247,200 for 2026. The subsidy payment shall increase by 3% each year. To calculate the subsidy payment, the developer shall multiply the fraction by the payment. For example, a fraction of 0.4 triggered in 2026 would require a payment of \$98,880. The payment shall be made to the Borough’s Affordable Housing Trust Fund.

§ 175-87. Affordable housing programs.

- A. Pursuant to amended UHAC regulations at N.J.A.C. 5:80-26.1 et seq. and, in addition, pursuant to P.L. 2024, c.2 and specifically to the amended FHA at N.J.S.A. 52:27D-311.m, “All parties shall be entitled to rely upon regulations on municipal credits, adjustments, and compliance mechanisms adopted by the Council on Affordable Housing unless those regulations are contradicted by statute, including but not limited to P.L. 2024, c.2, or binding court decisions.” The following are many of the main provisions of the COAH regulations at either N.J.A.C. 5:93 or 5:97 that have been upheld by the NJ Supreme Court. Municipalities should consult the cited full COAH regulations when preparing the HEFSP for required documentation, etc. Additional compliance details may also be included in the specific municipal program manual.

§ 175-88. New construction programs.

- A. The following requirements shall apply to all new or planned developments that contain very low-, low- and moderate-income housing units. To the extent possible, details related to the adherence to the requirements below shall be outlined in the resolution granting municipal subdivision or site plan approval of the project to assist municipal representatives, developers and Administrative Agents.
- B. Completion Schedule (previously known as phasing). Final site plan or subdivision approval shall be contingent upon the affordable housing development meeting the following completion schedule for very low-, low- and moderate-income units whether developed in a single-phase development, or in a multi-phase development:

Maximum Percentage of Market-Rate Units Issued a Temporary or Final Certificate of Occupancy	Minimum Percentage of Affordable Units Issued a Temporary or Final Certificate of Occupancy
25+1	10

50	50
75	75
90	100

C. Design. The following design requirements apply to affordable housing developments, excluding prior round units.

(1) Design of 100 percent affordable developments:

(a) Restricted units must meet the minimum square footage required for the number of inhabitants for which the unit is marketed and the minimum square footage required for each bedroom, as set forth in the Neighborhood Preservation Balanced Housing rules at N.J.A.C. 5:43-2.4.

[1] Each bedroom in each restricted unit must have at least one window.

[2] Restricted units must include adequate air conditioning and heating.

(2) Design of developments comprising market-rate rental units and restricted rental units. The following does not apply to prior round units, unless stated otherwise.

(a) Restricted units must use the same building materials and architectural design elements (for example, plumbing, insulation, or siding) as market-rate units of the same unit type (for example, flat or townhome) within the same development, except that restricted units and market-rate units may use different interior finishes. This shall apply to prior round units.

(b) Restricted units and market-rate units within the same affordable development must be sited such that restricted units are not concentrated in less desirable locations.

(c) Restricted units may not be physically clustered so as to segregate restricted and market-rate units within the same development or within the same building, but must be interspersed throughout the development, except that age-restricted and supportive housing units may be physically clustered if the clustering facilitates the provision of on-site medical services or on-site social services. Prior round affordable units shall be integrated with market rate units to the extent feasible.

(d) Residents of restricted units must be offered the same access to communal amenities as residents of market-rate units within the same affordable development. Examples of communal amenities include, but are not limited to, community pools, fitness and recreation centers, playgrounds, common rooms and outdoor spaces, and building entrances and exits. This shall apply to prior round units.

(e) Restricted units must include adequate air conditioning and heating and must use the same type of cooling and heating sources as market-rate units of the same unit type. This shall apply to prior round units.

(f) Each bedroom in each restricted unit must have at least one window.

(g) Restricted units must be of the same unit type as market-rate units within the same building.

- (h) Restricted units and bedrooms must be no less than 90 percent of the minimum size prescribed by the Neighborhood Preservation Balanced Housing rules at N.J.A.C. 5:43-2.4.
- (3) Design of developments containing for-sale units, including those with a mix of rental and for-sale units. Restricted rental units shall meet the requirements of section C. (2) above. Restricted sale units shall comply with the below:
- (a) Restricted units must use the same building standards as market-rate units of the same unit type (for example, flat, townhome, or single-family home), except that restricted units and market-rate units may use different interior finishes. This shall apply to prior round units.
 - (b) Restricted units may be clustered, provided that the buildings or housing product types containing the restricted units are integrated throughout the development and are not concentrated in an undesirable location or in undesirable locations. Prior round affordable units shall be integrated with market rate units to the extent feasible.
 - (c) Restricted units may be of different unit housing product types than market-rate units, provided that there is a restricted option available for each market rate housing type. Developments containing market-rate duplexes, townhomes, and/or single-family homes shall offer restricted housing options that also include duplexes, townhomes, and/or single-family homes. Penthouses and higher priced end townhouses shall be exempt from this requirement. The proper ratio for restricted to market-rate unit type shall be subject to municipal ordinance or, if not specified, shall be determined at the time of site plan approval.
 - (d) Restricted units must meet the minimum square footage required for the number of inhabitants for which the unit is marketed and the minimum square footage required for each bedroom, as set forth in the Neighborhood Preservation Balanced Housing rules at N.J.A.C. 5:43-2.4.
 - (e) Penthouse and end units may be reserved for market-rate sale, provided that the overall number, value, and distribution of affordable units across the development is not negatively impacted by such reservation(s).
 - (f) Residents of restricted units must be offered the same access to communal amenities as residents of market-rate units within the same affordable development. Examples of communal amenities include, but are not limited to, community pools, fitness and recreation centers, playgrounds, common rooms and outdoor spaces, and building entrances and exits. This shall apply to prior round units.
 - (g) Each bedroom in each restricted unit must have at least one window.
 - (h) Restricted units must include adequate air conditioning and heating.

D. Utilities.

- (1) Affordable units shall utilize the same type of cooling and heating source as market-rate units within the affordable housing development.
- (2) Tenant-paid utilities that are included in the utility allowance shall be so stated in the lease and shall be consistent with the utility allowance in accordance with N.J.AC 5:80-26.13(e).

E. Low/moderate split and bedroom distribution.

- (1) Affordable units shall be divided equally between low- and moderate-income units, except that where there is an odd number of affordable housing units, the extra unit shall be a low-income unit.
- (2) In each affordable housing development, at least 50% of the restricted units within each bedroom distribution rounded up to the nearest whole number shall be very low- or low-income units.
- (3) Within rental developments, of the total number of affordable rental units, at least 13%, rounded up to the nearest whole number, shall be affordable to very low-income households. The very low-income units shall be distributed between each bedroom count as proportionally as possible, to the nearest whole unit, to the total number of restricted units within each bedroom count, and counted as part of the required number of low-income units within the development.
- (4) Affordable housing developments that are not age-restricted or supportive housing shall be structured such that:
 - (a) At a minimum, the number of bedrooms within the restricted units equals twice the number of restricted units;
 - (b) Two-bedroom and/or three-bedroom units compose at least 50 percent of all restricted units;
 - (c) The combined number of efficiency and one-bedroom units shall be no greater than 20%, rounded down, of the total number of low- and moderate-income units.
 - (d) At least 30% of all low- and moderate-income units, rounded up shall be two-bedroom units.
 - (e) At least 20% of all low- and moderate-income units, rounded up shall be three-bedroom units.
 - (f) The remaining units may be allocated among two- and three- bedroom units at the discretion of the developer.
- (5) Affordable housing developments that are age-restricted or supportive housing, except those supportive housing units whose sponsoring program determines the unit arrangements, shall be structured such that, at a minimum, the number of bedrooms shall equal the number of age-restricted or supportive housing low- and moderate-income units within the inclusionary development. Supportive housing units whose sponsoring program determines the unit arrangement shall comply with all requirements of the sponsoring program. The standard may be met by having all one-bedroom units or by having a two-bedroom unit for each efficiency unit. In affordable housing developments with 20 or more restricted units that are age-restricted or supportive housing, two-bedroom units must comprise at least 5% of those restricted units.

F. Accessibility requirements.

- (1) Any new construction shall be adaptable; however, elevators shall not be required in any building or within any dwelling unit for the purpose of compliance with this section. In buildings without elevator service, only ground floor dwelling units shall be required to be constructed to conform with the technical design standards of the barrier free subcode. "Ground floor" means the first floor with a dwelling unit or portion of a dwelling unit,

regardless of whether that floor is at grade. A building may have more than one ground floor.

- (2) Notwithstanding the exemption for townhouse dwelling units in the barrier free subcode, the first floor of all townhouse dwelling units and of all other multi-floor dwelling units that are attached to at least one other dwelling unit shall be subject to the technical design standards of the barrier free subcode and shall include the following features:
 - (a) An adaptable toilet and bathing facility on the first floor;
 - (b) An adaptable kitchen on the first floor;
 - (c) An interior accessible route of travel, however an interior accessible route of travel shall not be required between stories;
 - (d) An adaptable room that can be used as a bedroom, with a door, or the casing for the installation of a door that is compliant with the Barrier Free Subcode, on the first floor;
 - (e) If not all of the foregoing requirements in (2)(a) through (2)(d) can be satisfied, then an interior accessible route of travel shall be provided between stories within an individual unit; and
 - (f) An accessible entranceway as set forth in P.L. 2005, c. 350 (N.J.S.A. 52:27D-311a et seq.) and the Barrier Free Subcode, N.J.A.C. 5:23-7, or evidence that the municipality has collected funds from the developer sufficient to make 10% of the adaptable entrances in the development accessible:
 - [1] Where a unit has been constructed with an adaptable entrance, upon the request of a disabled person who is purchasing or will reside in the dwelling unit, an accessible entrance shall be installed.
 - [2] To this end, the builder of restricted units shall deposit funds within the Affordable Housing Trust Fund sufficient to install accessible entrances in 10% of the affordable units that have been constructed with adaptable entrances.
 - [3] The funds deposited shall be expended for the sole purpose of making the adaptable entrance of an affordable unit accessible when requested to do so by a person with a disability who occupies or intends to occupy the unit and requires an accessible entrance.
 - [4] The developer of the restricted units shall submit to the Construction Official a design plan and cost estimate for the conversion from adaptable to accessible entrances.
 - [5] Once the Construction Official has determined that the design plan to convert the unit entrances from adaptable to accessible meets the requirements of the Barrier Free Subcode, N.J.A.C. 5:23-7, and that the cost estimate of such conversion is reasonable, payment shall be made to the Affordable Housing Trust Fund and earmarked appropriately.
 - (g) Full compliance with the foregoing provisions shall not be required where an entity can demonstrate that it is “site-impracticable” to meet the requirements. If full compliance with this section would be site impracticable, compliance with this section for any portion of the dwelling shall be required to the extent that it is not site impracticable.

Determinations of site impracticability shall comply with the Barrier Free Subcode at N.J.A.C. 5:23-7.

G. Accessory apartment program.

- (1) An accessory apartment program shall provide low- and moderate-income units or may be limited to only low- or only moderate-income units.
- (2) Per N.J.A.C. 5:97-6.8(c)1, at the time of initial occupancy of the unit and for at least ten years thereafter, the accessory apartment shall be rented only to income eligible households consistent with the income category and rent structure of the unit.
- (3) Rents of accessory apartments shall be established using the same methodology of affordable rental units discussed herein.
- (4) There shall be a recorded deed or declaration of covenants and restrictions applied to the property upon which the accessory apartment is located running with the land and limiting its subsequent rental for the duration of the control period.
- (5) The municipal accessory apartment program shall not restrict the number of bedrooms in any accessory apartment.
- (6) Per N.J.A.C. 5:97-6.8(b)2, the municipality shall provide a minimum of \$25,000 per unit to subsidize the creation of each low-income accessory apartment or \$20,000 per unit to subsidize the creation of each moderate-income accessory apartment. The subsidy may be used to fund actual construction costs and/or to provide compensation for reduced rental rates. Demarest will provide \$75,000 per unit to subsidize the creation of accessory apartments.

H. Supportive Housing and Group Homes (per N.J.A.C. 5:97-6.10).

- (1) The following provisions shall apply to group homes, residential health care facilities, and supportive shared living housing:
 - (a) The unit of credit shall be the bedroom. However, the unit of credit shall be the unit if occupied by a single person or household.
 - (b) Housing that is age-restricted shall be included with the maximum number of units that may be age-restricted pursuant to the Act.
 - (c) Occupancy shall not be restricted to youth under 18 years of age.
 - (d) In affordable developments with 20 or more restricted units that are supportive housing, two-bedroom units must compose at least five percent of those restricted units.
 - (e) The bedrooms and/or units shall comply with UHAC with the following exceptions:
 - [1] Affirmative marketing; however, group homes, residential health care facilities, permanent supportive housing and supportive shared living housing shall be affirmatively marketed to broadest possible population of qualified individuals with special needs in accordance with a plan approved by the sponsoring program;
 - [2] Affordability average and bedroom distribution (N.J.A.C. 5:80-26.4).
 - (f) With the exception of units established with capital funding through a 20-year operating contract with the Department of Human Services, Division of Developmental

Disabilities, group homes, residential health care facilities, supportive shared living housing and permanent supportive housing shall have the appropriate controls on affordability in accordance with the Act. In the event that a supportive housing provider is unable to record or execute a long-term deed restriction, the units shall be subject to annual recertification by the Municipal Housing Liaison to confirm continued occupancy and compliance with this Section.

(g) Objective standards shall be applied in the selection of tenants for supportive housing units and shall be designed to ensure that individuals are not excluded in an arbitrary or capricious manner.

(h) The following documentation shall be submitted by the sponsor to the municipality prior to marketing the completed units or facility:

[1] If applicable, proof that the supportive and/or special needs housing is regulated by the New Jersey Department of Health and Senior Services, the New Jersey Department of Human Services or another State agency in accordance with the requirements of this section, which includes validation of the number of bedrooms or units in which low- or moderate-income occupants reside.

(i) The sponsor/owner shall complete annual monitoring as directed by the MHL.

§ 175-89. Regional income limits.

- A. Administrative agents shall use the current regional income limits for the purpose of pricing affordable units and determining income eligibility of households.
- B. Regional income limits are based on regional median income, which is established by a regional weighted average of the "median family incomes" published by HUD. The procedure for computing the regional median income is detailed in N.J.A.C. 5:80-26.3.
- C. Updated regional income limits are effective as of the effective date of the regional Section 8 income limits for the year, as published by HUD, or 45 days after HUD publishes the regional Section 8 income limits for the year, whichever comes later. The new income limits may not be less than those of the previous year.

§ 175-90. Maximum initial rents and sales prices.

- A. In establishing rents and sales prices of affordable housing units, the Administrative Agent shall follow the procedures set forth in UHAC N.J.A.C. 5:80-26.4.
- B. The average rent for all restricted units within each affordable housing development shall be affordable to households earning no more than 52 percent of regional median income.
- C. The maximum rent for restricted rental units within each affordable housing development shall be affordable to households earning no more than 60% of regional median income. The maximum rent may be increased to no more than 70 percent of regional median income for moderate-income units within affordable developments where very-low-income units compose at least 13 percent of the restricted units; however, the number of units with rent affordable to households earning 70 percent of regional median income may not exceed the number of very-low-income units in excess of 13 percent (rounded up) of the restricted units.
- D. The developers and/or municipal sponsors of restricted rental units shall establish at least one rent for each bedroom type for both low-income and moderate-income units. Very low-income

units, if required, should be distributed between each bedroom count as proportionally as possible to the total number of restricted units within each bedroom count, and shall be part of the low-income requirement.

- E. The maximum sales price of restricted ownership units within each affordable housing development shall be affordable to households earning no more than 70% of median income, and each affordable housing development must achieve an affordability average that does not exceed 55% for all restricted ownership units. In achieving this affordability average, moderate-income ownership units must be available for at least three different prices for each bedroom type, and low-income ownership units must be available for at least two different prices for each bedroom type when the number of low- and moderate-income units permits.
- F. The master deeds and declarations of covenants and restrictions for affordable developments may not distinguish between restricted units and market-rate units in the calculation of any condominium or homeowner association fees and special assessments to be paid by low- and moderate-income purchasers and those to be paid by market-rate purchasers. Notwithstanding the foregoing sentence, condominium units subject to a municipal ordinance adopted before December 20, 2004, which ordinance provides for condominium or homeowner association fees and/or assessments different from those provided for in this subsection are governed by the ordinance.
- G. In determining the initial sales prices and rents for compliance with the affordability average requirements for restricted family units, the following standards shall be met:
 - (1) A studio or efficiency unit shall be affordable to a one-person household;
 - (2) A one-bedroom unit shall be affordable to a one- and one-half-person household;
 - (3) A two-bedroom unit shall be affordable to a three-person household;
 - (4) A three-bedroom unit shall be affordable to a four and one-half person household; and
 - (5) A four-bedroom unit shall be affordable to a six-person household.
- H. In determining the initial rents and sales prices for compliance with the affordability average requirements for restricted units in assisted living facilities and age-restricted and special needs and supportive housing developments, the following standards shall be met:
 - (1) A studio or efficiency unit shall be affordable to a one-person household;
 - (2) A one-bedroom unit shall be affordable to a one- and one-half-person household; and
 - (3) A two-bedroom unit shall be affordable to a two-person household or to two one-person households. Where pricing is based on two one-person households, the developer shall provide a list of units so priced to the Municipal Housing Liaison and the Administrative Agent.
- I. The initial purchase price for all restricted ownership units shall be calculated so that the monthly carrying cost of the unit, including principal and interest (based on a mortgage loan equal to 95 percent of the purchase price and the Freddie Mac 30-Year Fixed Rate-Mortgage rate of interest), property taxes, homeowner and private mortgage insurance and condominium or homeowner association fees do not exceed 30 percent of the eligible monthly income of the appropriate size household as determined pursuant to N.J.A.C. 5:80-26.7, as may be amended and supplemented; provided, however, that the price shall be subject to the affordability average requirement of N.J.A.C. 5:80-26.4, as may be amended and supplemented.

- J. The initial rent for a restricted rental unit shall be calculated so that the total monthly housing expense, including an allowance for tenant-paid utilities, does not exceed 30 percent of the gross monthly income of a household of the appropriate size whose income is targeted to the applicable percentage of median income for the unit, as determined pursuant to N.J.A.C. 5:80-26.3, as may be amended and supplemented. The rent shall also comply with the affordability average requirement of N.J.A.C. 5:80-26.4, as may be amended and supplemented.
- K. At the anniversary date of the tenancy of the certified household occupying a restricted rental unit, following a minimum 90-day notice provided to the occupant household, the rent may be increased to an amount commensurate with the annual percentage increase in the Consumer Price Index for All Urban Consumers (CPI-U), specifically U.S. Bureau of Labor Statistics Series CUUR0100SAH, titled "Housing in Northeast urban, all urban consumers, not seasonally adjusted." The maximum allowable rent increase for the year will be effective as of the same date as the regional median income limits determined pursuant to N.J.A.C. 5:80-26.3 and published by the Agency. This rent increase may not exceed five percent in any one year and notice thereof must be filed with the administrative agent. If the landlord has charged a tenant less than the initial maximum allowable rent for a restricted unit, the landlord may, with the approval of the administrative agent, use the maximum allowable rent instead of the current rent in performing this multiplication to establish the rent for the next tenant under a new lease. LIHTC units are not governed by the provisions of this section, but rather by the provisions of the State's Qualified Allocation Plan, N.J.A.C. 5:80-33.1 through 33.40.

§ 175-91. Affirmative marketing.

- A. The municipality shall adopt, by resolution, an Affirmative Marketing Plan, subject to approval of the Superior Court, compliant with N.J.A.C. 5:80-26.16, as may be amended and supplemented.
- B. The Affirmative Marketing Plan is a regional marketing strategy designed to attract buyers and/or renters of all majority and minority groups, regardless of race, creed, color, national origin, ancestry, English-speaking ability, marital or familial status, gender, affectional or sexual orientation, disability, age (except for "housing for older persons" as defined at N.J.S.A. 10:5-1 et seq., and age-restricted units as permitted pursuant to 42 U.S.C. §§ 3601 et seq.), or number of children, source of lawful income, or any other characteristic described in the New Jersey Law Against Discrimination, N.J.S.A. 10:5-1 through 50, to housing units which are being marketed by a developer, sponsor or owner of affordable housing. The Affirmative Marketing Plan is intended to target those potentially eligible persons who are least likely to apply for affordable units in that region. It is a continuing program that directs all marketing activities toward Housing Region 1 and is required to be followed throughout the period of deed restriction.
- C. The Affirmative Marketing Plan provides the following preferences, provided that units that remain unoccupied after these preferences are exhausted may be offered to households without regard to these preferences.
 - (1) Where the municipality has entered into an agreement with a developer or residential development owner to provide a preference for very-low, low-, and moderate-income veterans who served in time of war or other emergency, pursuant to N.J.S.A. 52:27D-311.j, there shall be a preference for veterans for up to 50 percent of the restricted rental units in a particular project.

- (2) There shall be a regional preference for all households that live and/or work in Housing Region 2 comprising Bergen, Hudson, Passaic, and Sussex Counties.
 - (3) Subordinate to the regional preference, there shall be a preference for households that live and/or work in New Jersey.
 - (4) With respect to existing restricted units undergoing approved rehabilitation for the purpose of preservation or to restricted units newly created to replace existing restricted units undergoing demolition, a preference for the very-low-, low-, and moderate-income households that are displaced by the rehabilitation or demolition and replacement.
- D. The municipality has the ultimate responsibility for adopting the Affirmative Marketing Plan and for the proper administration of the Affirmative Marketing Process, including the marketing of initial sales and rentals and resales and re-rentals. The Administrative Agent designated by the municipality shall implement the Affirmative Marketing Process to ensure the Affirmative Marketing of all affordable units, with the exception of affordable programs that are exempt from Affirmative Marketing as noted herein.
 - E. The Affirmative Marketing Process shall describe the media to be used in advertising and publicizing the availability of housing. In implementing the Affirmative Marketing Process, the Administrative Agent should consider the use of language translations where appropriate.
 - F. Applications for affordable housing or notices thereof, if offered online, shall be available in several locations, including, at a minimum, the County Administration Building and/or the County Library for each county within the housing region; the municipal administration building and municipal library in the municipality in which the units are located; and the developer's rental or sales office. The developer shall mail applications to prospective applicants upon request and shall make applications available through a secure online website address.
 - G. In addition to other Affirmative Marketing strategies, the Administrative Agent shall provide specific notice of the availability of affordable housing units on the New Jersey Housing Resource Center website. Any other entities, including developers or persons or companies retained to implement the Affirmative Marketing Process, shall comply with this paragraph. Notice shall also be provided to Fair Share Housing Center Latino Action Network, Bergen County NAACP, Bergen Urban League, Bergen County Housing Coalition, and Supportive Housing Association.
 - H. In implementing the Affirmative Marketing Process, the Administrative Agent shall provide a list of HUD-certified housing counselors or otherwise experienced entities approved by the Division providing counseling services on subjects such as budgeting, credit issues, mortgage qualification, rental lease requirements, and landlord/tenant law.
 - I. The Affirmative Marketing Process for available affordable units shall begin at least four months (120 days) prior to the expected date of occupancy and may begin before construction commences. For owner-occupied units, affirmative marketing advertising and outreach activities must continue until all of the marketed units have been sold, except that paid advertising may cease when the number of applications received is at least three times the number of units to be sold. For rental units, affirmative marketing advertising and outreach activities must continue, as long as applications are being accepted, except that paid advertising may cease when the number of applications received is at least three times the number of units to be filled.

- J. Applications must be accepted for no less than 45 days following the initial advertisement on the New Jersey Housing Resource Center, except for the resale of owner-occupied units, in which case, applications must be accepted for no less than 30 days.
- K. The cost to affirmatively market the affordable units shall be the responsibility of the developer, sponsor or owner, with the exception of Affirmative Marketing for resales.

§ 175-92. Selection of occupants of affordable housing units.

- A. The Administrative Agent shall use a random selection process to select occupants of very low-, low- and moderate-income housing.
- B. A pool of interested households will be maintained in accordance with the provisions of N.J.A.C. 5:80-26.16.

§ 175-93. Occupancy standards.

- A. In referring certified households to specific restricted units, to the extent feasible, and without causing an undue delay in occupying the unit, the Administrative Agent shall strive to:
 - (1) Ensure each bedroom is occupied by at least one person, except for age-restricted and supportive and special needs housing units;
 - (2) Provide a bedroom for every two adult occupants;
 - (3) With regard to occupants under the age of 18, accommodate the household's requested arrangement, except that such arrangement may not result in more than two occupants under the age of 18 occupying any bedroom; and
 - (4) Avoid placing a one-person household into a unit with more than one bedroom.

§ 175-94. Control periods for restricted ownership units and enforcement mechanisms.

- A. Control periods for restricted ownership units shall be in accordance with N.J.A.C. 5:80- 26.6, as may be amended and supplemented, and each restricted ownership unit shall remain subject to the controls on affordability for a period of at least 30 years subject to the requirements of N.J.A.C. 5:80-26.6, as may be amended and supplemented.
- B. Rehabilitated housing units that are improved to code standards shall be subject to affordability controls for a period of not less than 10 years (crediting towards present need only).
- C. The affordability control period for a restricted ownership unit shall commence on the date the initial certified household takes title to the unit. The date of commencement shall be identified in the deed restriction for units issued a CO after December 15, 2025.
- D. If existing affordability controls are being extended, the extended control period for a restricted ownership unit commences on the effective date of the extension, which is the end of the original control period.
- E. After the end of any control period, the restricted ownership unit remains subject to the affordability controls set forth in this subchapter until the owner gives notice of their intent to make an exit sale, at which point:
 - (1) If the municipality exercises the right to extend the affordability controls on the unit, no exit sale occurs and a new control period commences; or

- (2) If the municipality does not exercise the right to extend the affordability controls on the unit, the affordability controls terminate following the exit sale.
- F. Prior to the issuance of any building permit for the construction/rehabilitation of restricted ownership units, the developer/owner and the municipality shall record a preliminary instrument provided by the Administrative Agent.
- G. Prior to the issuance of the initial certificate of occupancy for a restricted ownership unit and upon each successive sale during the period of restricted ownership, the Administrative Agent shall determine the restricted price for the unit and shall also determine the nonrestricted, fair market value of the unit based on either an appraisal or the unit's equalized assessed value without the restrictions in place.
- H. At the time of the initial sale of the unit and upon each successive price-restricted sale, the initial purchaser shall execute and deliver to the Administrative Agent a recapture note obliging the purchaser, as well as the purchaser's heirs, successors, and assigns, to repay, upon the first non-exempt sale after the unit's release from the restrictions set forth in this article, an amount equal to the difference between the unit's non-restricted fair market value and its restricted price, and the recapture note shall be secured by a recapture lien evidenced by a duly recorded mortgage on the unit.
- I. The affordability controls set forth in this article shall remain in effect despite the entry and enforcement of any judgment of foreclosure with respect to price-restricted ownership units.

§ 175-95. Price restrictions for restricted ownership units and resale prices.

- A. Price restrictions for restricted ownership units shall be in accordance with N.J.A.C. 5:80-26.7, as may be amended and supplemented, including:
- (1) The initial purchase price and affordability percentage for a restricted ownership unit shall be set by the Administrative Agent.
- (2) The Administrative Agent shall approve all resale prices, in writing and in advance of the resale, to assure compliance with the standards set forth in N.J.A.C. 5:80-26.7.
- (a) If the resale occurs prior to the one-year anniversary of the date on which title to the unit was transferred to a certified household, the maximum resale price for the unit is the most recent non-exempt purchase price.
- (b) If the resale occurs on or after such anniversary date, the maximum resale price is the most recent non-exempt purchase price increased to reflect the cumulative annual percentage increases to the regional median income, effective as of the same date as the regional median income calculated pursuant to N.J.A.C. 5:80-26.3.
- (3) The owners of restricted ownership units may apply to the Administrative Agent to increase the maximum sales price for the unit on the basis of anticipated capital improvements. Eligible capital improvements shall be:
- (a) Those that render the unit suitable for a larger household or the addition of a bathroom.
- (b) The maximum resale price may be further increased by an amount up to the cumulative dollar value of approved capital improvements made after the last non-exempt sale for improvements and/or upgrades to the unit, excluding capital

improvements paid for by the entity favored on the recapture note and recapture lien described at N.J.A.C. 5:80-26.6(d).

(4) No increase for capital improvements is permitted if the maximum resale price prior to adjusting for capital improvements already exceeds whatever initial purchase price the unit would have if it were being offered for purchase for the first time at the initial affordability percentage. All adjustments for capital improvements are subject to 10-year, straight-line depreciation.

B. Upon the resale of a restricted ownership unit, all items of property that are permanently affixed to the unit or were included when the unit was initially restricted (for example, refrigerator, range, washer, dryer, dishwasher, wall-to-wall carpeting) shall be included in the maximum allowable resale price. Other items may be sold to the purchaser at a reasonable price that has been approved by the Administrative Agent at the time of the signing of the agreement to purchase but shall be separate and apart from any contract of sale for the underlying real estate. The purchase of central air conditioning installed subsequent to the initial sale of the unit and not included in the base price may be made a condition of the unit resale provided the price of the air conditioning equipment, which shall be subject to 10-year, straight-line depreciation, has been approved by the Administrative Agent. Unless otherwise approved by the Administrative Agent, the purchase of any property other than central air conditioning shall not be made a condition of the unit resale. The seller and the purchaser must personally certify at the time of closing that no unapproved transfer of funds for the purpose of selling and receiving property has taken place at the time of or as a condition of resale.

§ 175-96. Buyer income eligibility.

A. Buyer income eligibility for restricted ownership units shall be established pursuant to N.J.A.C. 5:80-26.17, as may be amended and supplemented, such that very low-income ownership units shall be reserved for occupancy by households with a gross household income less than or equal to 30% of median income, low-income ownership units shall be reserved for occupancy by households with a gross household income less than or equal to 50% of median income and moderate-income ownership units shall be reserved for occupancy by households with a gross household income less than 80% of median income.

B. Notwithstanding the foregoing, the Administrative Agent may, upon approval by the municipality, and subject to the Division's approval, permit a moderate-income purchaser to buy a low-income unit if and only if the Administrative Agent can demonstrate that there is an insufficient number of eligible low-income purchasers in the housing region to permit prompt occupancy of the unit and all other reasonable efforts to attract a low-income purchaser, including pricing and financing incentives, have failed. Any such low-income unit that is sold to a moderate-income household shall retain the required pricing and pricing restrictions for a low-income unit. Similarly, the administrative agent may permit low-income purchasers to buy very-low-income units in housing markets where, as determined by the Division, units are reserved for very-low-income purchasers, but there is an insufficient number of very-low-income purchasers to permit prompt occupancy of the units. In such instances, the purchased unit must be maintained as a very-low-income unit and sold at a very-low-income price point such that on the next resale the unit will still be affordable to very-low-income households and able to be purchased by a very-low-income household. A very-low-income unit that is seeking bonus credit pursuant to N.J.S.A. 52:27D-311.k(9) must first be advertised exclusively as a very-low-income unit according to the Affirmative Marketing requirements at N.J.A.C. 5:80-26.16, then advertised as a very-low-income or low-income unit for at least 30 additional days prior to referring any low-income household to the unit.

- C. A certified household that purchases a restricted ownership unit must occupy it as the certified household's principal residence and shall not lease the unit; provided, however, that the Administrative Agent may permit the owner of a restricted ownership unit, upon application and a showing of hardship, to lease the restricted unit to another certified household for a period not to exceed one year.
- D. The Administrative Agent shall certify a household as eligible for a restricted ownership unit when the household is a low-income household or a moderate-income household, as applicable to the unit, and the estimated monthly housing cost for the particular unit (including principal, interest, property taxes, homeowner and private mortgage insurance and condominium or homeowner association fees, as applicable) does not exceed 35 percent of the household's eligible monthly income; provided, however, that this limit may be exceeded if one or more of the following circumstances exists:
 - (1) The household currently pays more than 35% (40% for households eligible for age-restricted units) of its gross household income for housing expenses, and the proposed housing expenses will reduce its housing costs; or
 - (2) The household has consistently paid more than 35% (40% for households eligible for age-restricted units) of eligible monthly income for housing expenses in the past and has proven its ability to pay; or
 - (3) The household is currently in substandard or overcrowded living conditions; or
 - (4) The household documents the existence of assets, within the asset limitation otherwise applicable, with which the household proposes to supplement the rent payments.

§ 175-97. Limitations on indebtedness secured by ownership unit; subordination.

- A. Prior to incurring any indebtedness to be secured by a restricted ownership unit, the owner shall apply to the Administrative Agent for a determination in writing that the proposed indebtedness complies with the provisions of this Section, and the Administrative Agent shall issue such determination prior to the owner incurring such indebtedness.
- B. With the exception of original purchase money mortgages, neither an owner nor a lender shall at any time during the control period cause or permit the total indebtedness secured by a restricted ownership unit to exceed 95% of the maximum allowable resale price of that unit, as such price is determined by the Administrative Agent in accordance with N.J.A.C. 5:80-26.7(c).

§ 175-98. Control periods for restricted rental units.

- A. Control periods for units that meet the definition of prior round units shall be pursuant to the 2001 UHAC rules originally adopted October 1, 2001, 33 N.J.R. 3432 and shall remain subject to the requirements of this article for a period of at least 30 years as applicable unless otherwise indicated.
- B. Other than for prior round units, control periods for restricted rental units shall be in accordance with N.J.A.C. 5:80-26.12, as may be amended and supplemented, and each restricted rental unit shall remain subject to the requirements of this article for a period of at least 40 years. Restricted rental units created as part of developments receiving 9% Low-Income Housing Tax Credits must comply with a control period of not less than a 30-year compliance period plus a 15-year extended use period for a total of 45 years.

- C. The affordability control period for a restricted rental unit shall commence on the first date that a unit is issued a certificate of occupancy following the execution of the deed restriction or, if affordability controls are being extended, on the effective date of the extension, which is the end of the original control period.
- D. Rehabilitated renter-occupied housing units that are improved to code standards shall be subject to affordability controls for a period of not less than 10 years.
- E. Prior to the issuance of any building permit for the construction/rehabilitation of restricted rental units, the developer/owner and the municipality shall record a preliminary instrument provided by the Administrative Agent.
- F. Deeds of all real property that include restricted rental units shall contain deed restriction language. The deed restriction shall have priority over all mortgages on the property. The deed restriction shall be recorded by the developer with the county records office, and provided as filed and recorded, to the Administrative Agent within 30 days of the receipt of a certificate of occupancy.
- G. A restricted rental unit shall remain subject to the affordability controls of this article despite the occurrence of any of the following events:
 - (1) Sublease or assignment of the lease of the unit;
 - (2) Sale or other voluntary transfer of the ownership of the unit;
 - (3) The entry and enforcement of any judgment of foreclosure on the property containing the unit; or
 - (4) The end of the control period, until the occupant household vacates the unit, or is certified as over-income and the controls are released in accordance with UHAC.

§ 175-99. Rent restrictions for rental units; leases and fees.

- A. The initial rent for a restricted rental unit shall be set by the Administrative Agent.
- B. A written lease shall be required for all restricted rental units, except for units in an assisted living residence, and tenants shall be responsible for security deposits and the full amount of the rent as stated on the lease. A copy of the current lease for each restricted rental unit shall be retained on file by the Administrative Agent.
- C. No additional fees, operating costs, or charges shall be added to the approved rent (except, in the case of units in an assisted living residence, to cover the customary charges for food and services) without the express written approval of the Administrative Agent.
 - (1) Operating costs, for the purposes of this section, include certificate of occupancy fees, move-in fees, move-out fees, mandatory internet fees, mandatory cable fees, mandatory utility submetering fees, and for developments with more than one and a half off-street parking spaces per unit, parking fees for one parking space per household.
- D. Any fee structure that would remove or limit affordable unit occupant access to any amenities or services that are required or included for market-rate unit occupants is prohibited. Application fees (including the charge for any credit check) shall not exceed 5% of the monthly rent of the applicable restricted unit to be applied to the costs of administering the controls applicable to the unit as set forth in this article.

- E. Fees for unit-specific, non-communal items that are charged to market-rate unit tenants on an optional basis, such as pet fees for tenants with pets, storage spaces, bicycle-share programs, or one-time rentals of party or media rooms, may also be charged to affordable unit tenants, if applicable.
- F. Pet fees may not exceed \$30.00 per month and associated one-time payments for optional fees pertaining to pets, such as a pet cleaning fee, are prohibited.
- G. Fees charged to affordable unit tenants for other optional, unit-specific, non-communal items shall not exceed the amounts charged to market-rate tenants.
- H. For any prior round rental unit leased before December 20, 2024, elements of the existing fee structure that are consistent with prior rules, but inconsistent with 5:80-26.13(c)1, may continue until the occupant household's current lease term expires or that occupant household vacates the unit, whichever occurs later.

§ 175-100. Tenant income eligibility.

- A. Tenant income eligibility shall be determined pursuant to N.J.A.C. 5:80-26.14, as may be amended and supplemented, and shall be determined as follows:
 - (1) Very low-income rental units shall be reserved for households with a gross household income less than or equal to 30% of the regional median income by household size.
 - (2) Low-income rental units shall be reserved for households with a gross household income less than or equal to 50% of the regional median income by household size.
 - (3) Moderate-income rental units shall be reserved for households with a gross household income less than 80% of the regional median income by household size.
- B. The Administrative Agent shall certify a household as eligible for a restricted rental unit when the household is a very low-income, low-income or moderate-income household, as applicable to the unit, and the rent proposed for the unit does not exceed 35% (40% for age-restricted units) of the household's eligible monthly income as determined pursuant to N.J.A.C. 5:80-26.17, as may be amended and supplemented; provided, however, that this limit may be exceeded if one or more of the following circumstances exists:
 - (1) The household currently pays more than 35% (40% for households eligible for age-restricted units) of its gross household income for rent, and the proposed rent will reduce its housing costs; or
 - (2) The household has consistently paid more than 35% (40% for households eligible for age-restricted units) of eligible monthly income for rent in the past and has proven its ability to pay; or
 - (3) The household is currently in substandard or overcrowded living conditions; or
 - (4) The household documents the existence of assets with which the household proposes to supplement the rent payments; or
 - (5) The household documents reliable anticipated third-party assistance from an outside source such as a family member in a form acceptable to the Administrative Agent and the owner of the unit.

§ 175-104. Enforcement of affordable housing regulations.

- A. Upon the occurrence of a breach of any of the regulations governing the affordable unit by an owner, developer or tenant, the municipality shall have all remedies provided at law or equity, including but not limited to foreclosure, tenant eviction, municipal fines, a requirement for household recertification, acceleration of all sums due under a mortgage, recoupment of any funds from a sale in the violation of the regulations, injunctive relief to prevent further violation of the regulations, entry on the premises, and specific performance.
- B. After providing written notice of a violation to an owner, developer or tenant of an affordable unit and advising the owner, developer or tenant of the penalties for such violations, the municipality may take the following action against the owner, developer or tenant for any violation that remains uncured for a period of 60 days after service of the written notice:
 - (1) The municipality may file a court action pursuant to N.J.S.A. 2A:58-11 alleging a violation, or violations, of the regulations governing the affordable housing unit. If the owner, developer or tenant is found by the Court to have violated any provision of the regulations governing affordable housing units the owner, developer or tenant shall be subject to one or more of the following penalties, at the discretion of the Court:

- (a) A fine of not more than \$1,000 or imprisonment for a period not to exceed 90 days, or both, unless otherwise specified below, provided that each and every day that the violation continues or exists shall be considered a separate and specific violation of these provisions and not a continuation of the initial offense;
 - (b) In the case of an owner who has rented his or her low- or moderate-income unit in violation of the regulations governing affordable housing units, payment into the Affordable Housing Trust Fund of the gross amount of rent illegally collected;
 - (c) In the case of an owner who has rented his or her affordable unit in violation of the regulations governing affordable housing units, payment of an innocent tenant's reasonable relocation costs, as determined by the Court.
- C. The municipality shall have the authority to levy fines against the owner of the development for instances of noncompliance with NJHRC advertising requirements (N.J.S.A. 52:27D-321.6. (e. (2))), following written notice to the owner. The fine for the first offense of noncompliance shall be \$5,000, the fine for the second offense of noncompliance shall be \$10,000, and the fine for each subsequent offense of noncompliance shall be \$15,000.
- D. The municipality may file a court action in the Superior Court seeking a judgment, which would result in the termination of the owner's equity or other interest in the unit, in the nature of a mortgage foreclosure. Any judgment shall be enforceable as if the same were a judgment of default of the first purchase money mortgage and shall constitute a lien against the low- or moderate-income unit.
- (1) Such judgment shall be enforceable, at the option of the municipality, by means of an execution sale by the Sheriff, at which time the affordable unit of the violating owner shall be sold at a sale price which is not less than the amount necessary to fully satisfy and pay off any first purchase money mortgage and prior liens and the costs of the enforcement proceedings incurred by the municipality, including attorney's fees. The violating owner shall have the right to possession terminated as well as the title conveyed pursuant to the Sheriff's sale.
 - (2) The proceeds of the Sheriff's sale shall first be applied to satisfy the first purchase money mortgage lien and any prior liens upon the low- or moderate-income unit. The excess, if any, shall be applied to reimburse the municipality for any and all costs and expenses incurred in connection with either the court action resulting in the judgment of violation or the Sheriff's sale. In the event that the proceeds from the Sheriff's sale are insufficient to reimburse the municipality in full as aforesaid, the violating owner shall be personally responsible for the full extent of such deficiency, in addition to any and all costs incurred by the municipality in connection with collecting such deficiency. In the event that a surplus remains after satisfying all of the above, such surplus shall be placed in escrow by the municipality for the owner and shall be held in such escrow for a maximum period of two years or until such earlier time as the owner shall make a claim with the municipality for such. Failure of the owner to claim such balance within the two-year period shall automatically result in a forfeiture of such balance to the municipality. Any interest accrued or earned on such balance while being held in escrow shall belong to and shall be paid to the municipality, whether such balance shall be paid to the owner or forfeited to the municipality.
 - (3) Foreclosure due to violation of the regulations governing affordable housing units shall not extinguish the restrictions of the regulations governing affordable housing units as they apply to the low- and moderate-income unit. Title shall be conveyed to the purchaser at the

Sheriff's sale, subject to the restrictions and provisions of the regulations governing the affordable housing unit. The owner determined to be in violation of the provisions of this plan and from whom title and possession were taken by means of the Sheriff's sale shall not be entitled to any right of redemption.

- (4) If there are no bidders at the Sheriff's sale, or if insufficient amounts are bid to satisfy the first purchase money mortgage and any prior liens, the municipality may acquire title to the affordable unit by satisfying the first purchase money mortgage and any prior liens and crediting the violating owner with an amount equal to the difference between the first purchase money mortgage and any prior liens and costs of the enforcement proceedings, including legal fees and the maximum resale price for which the affordable unit could have been sold under the terms of the regulations governing affordable housing units. This excess shall be treated in the same manner as the excess that would have been realized from an actual sale as previously described.
 - (5) Failure of the low- or moderate-income unit to be either sold at the Sheriff's sale or acquired by the municipality shall obligate the owner to accept an offer to purchase from any qualified purchaser that may be referred to the owner by the municipality, with such offer to purchase being equal to the maximum resale price of the low- or moderate-income unit as permitted by the regulations governing affordable housing units.
 - (6) The affordable unit owner shall remain fully obligated, responsible and liable for complying with the terms and restrictions of governing affordable housing units until such time as title is conveyed from the owner.
- E. It is the responsibility of the municipal housing liaison and the administrative agent(s) to ensure that affordable housing units are administered properly. All affordable units must be occupied within a reasonable amount of time and be re-leased within a reasonable amount of time upon the vacating of the unit by a tenant. If an administrative agent or municipal housing liaison becomes aware of or suspects that a developer, landlord, or property manager has not complied with these regulations, it shall report this activity to the Division. The Division must notify the developer, landlord, or property manager, in writing, of any violation of these regulations and provide a 30-day cure period. If, after the 30-day cure period, the developer, landlord, or property manager remains in violation of any terms of this subchapter, including by keeping a unit vacant, the developer, landlord, or property manager may be fined up to the amount required to construct a comparable affordable unit of the same size and the deed-restricted control period will be extended for the length of the time the unit was out of compliance, in addition to the remedies provided for in this section. For the purposes of this subsection, a reasonable amount of time shall presumptively be 60 days, unless a longer period of time is required due to demonstrable market conditions and/or failure of the municipal housing liaison or the administrative agent to refer a certified tenant.
- F. Banks and other lending institutions are prohibited from issuing any loan secured by owner occupied real property subject to the affordability controls set forth in this subchapter if such loan would be in excess of amounts permitted by the restriction documents recorded in the deed or mortgage book in the county in which the property is located. Any loan issued in violation of this subsection is void as against public policy.
- G. The Agency and the Department hereby reserve, for themselves and for each administrative agent appointed pursuant to this subchapter, all of the rights and remedies available at law and in equity for the enforcement of this subchapter, including, but not limited to, fines, evictions, and foreclosures as approved by a county-level housing judge.

H. Appeals

- (1) Appeals from all decisions of an administrative agent appointed pursuant to this subchapter must be filed, in writing, with the municipal housing liaison. A decision by the municipal housing liaison may be appealed to the Division. A written decision of the Division Director upholding, modifying, or reversing an administrative agent's decision is a final administrative action.
